

WHITEHILLS SCIENCE FAIR INFORMATION

March 14, 2024 *6:00-7:30 PM

Open to all students K-5th grades; sponsored by the WSA

You can create a fun science project and show it to your family and friends at school! All students who bring a project will get to choose a free book about science! Students choose their own projects, complete them at home (adults/siblings/etc. can help), and create a visual display to share. Students can work alone or with partners. Please have each partner fill out their own copy of this form and indicate who they're working with.

DEADLINE TO REGISTER: March 11, 2024

Project ideas, etc.: <https://whitehillsparents.weebly.com/science-fair.html>

Questions? Email Jessica Eyde at jessica.eyde@gmail.com

Types of projects include:

- **Experiments** (e.g. What kind of paper towel soaks up the most water? Which shoes help me jump the farthest? How can I tell that an egg in its shell is hard boiled? etc.)
- **Exhibits or models that give information** (e.g. models or displays of the earth, the heart, an airplane, a ribosome, a tree, a bridge, etc.)
- **Collections of items that you have described and classified** (e.g. leaves, feathers, rocks, seashells, seeds, insects, etc.)

Rules for projects:

- Nothing dangerous (if you don't know if it's dangerous, ask a responsible adult).
- No live animals.
- If your project is messy, you are responsible for cleaning it up.

Now here's the bit where you fill stuff out – return to office or email to Jessica

Whitehills Science Fair Registration Form

Due March 11, 2024

Student name _____ Grade _____ Teacher _____
