

Explore Diversity at Whitehills

We're so excited for our first *Embrace the World* celebration! We have over 15 tables hosted by Whitehills families representing different countries and other aspects of the diversity in our school community. Please join us on Thursday, February 12 from 6:00-8:00pm, with a special international musical performance and short program at 7:15pm. Our Wolves will receive passports to have stamped as they move from station to station, and children visiting more than ten stations will receive a special certificate. Listen carefully at each station—Passport Control Officers may ask you what you've learned!

UPCOMING EVENTS

WSA Meeting

Tuesday, February 10
7:00-8:30pm
Location: Whitehills Library

Embrace the World

Thursday, February 12
6:00-8:00pm

Meetings

At 7:00pm, second Tuesday of each month in the library

Science & Engineering Festival Coming Soon!

Save the date for our first annual *Whitehills Science & Engineering Festival*, to be held on Thursday, March 19 from 6:00-8:00pm. Whitehills will host a number of MSU labs and other community organizations who will provide hands-on activities for our Wolves to explore. Presenters will include popular local naturalists Jim and Carol McGrath of Nature Discovery, a team from the award-winning MSU Science Theatre, personnel from MSU Psychology, and more. Children will be treated to fun demonstrations and hands-on activities to inspire their curiosity and get them excited about science and engineering. This event will serve as a springboard for an exciting new Science Club that will start in April!

Contact one of the Co-chairs, Debbie Walton <dhwalton@gmail.com> or Kyle Enger <engerkyl@msu.edu>, with any questions. Want to help? A call for volunteers will come out soon!
